

New Source Review newspaper advertisements for construction permit applications, May 4, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: May 2, May 3, or May 4, 2006. Public notices are generally published every two weeks. The previous publication of public notices was April 18 – 20, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Chesapeake Appalachia with a mailing address of 900 Pennsylvania Avenue, Charleston, WV 25362. They seek to obtain an air contaminant permit (Division identification number: 07-0128-03/59214) for modification of a Natural Gas Dehydration Unit located in Proctor Hollow, Jellico, TN 37762. This existing operation consists of a natural gas-fired glycol dehydrator and still vent. The proposed modification is to increase Volatile Organic Compound (VOC) emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. It should be noted that this source currently possesses an air pollution control permit. Mr. David Gosslee is the assigned Division person.

For the Campbell County "Lafollette Press"--published once on or before Thursday, May 4, 2006.

The applicant is DTR TN-Tazewell with a mailing address of 150 Hester Lane, Tazewell, TN 37879. They seek to obtain an air contaminant permit (Division identification number: 13-0083-19/59190) for modification of an Adhesive Spray Coating Operation located at the same address. This proposed modification would consist of adding an additional adhesive coating system. Steam heated ovens would be used to dry the intermediate and final products. An oxidation system would be used to control the organic vapors, which include volatile organic compounds and hazardous air pollutants. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Claiborne County "Claiborne Progress"--published once on or before Thursday, May 4, 2006.

The applicant is Franklin Industrial Minerals with a mailing address of 612 10th Avenue North, Nashville, TN 37203. They seek to obtain an air contaminant permit (Division identification number: 18-0007-00/58844) for

modification of a Rock Crushing and Sizing Operation located at 10583 Highway 70 East, Crab Orchard, TN 37723. This existing operation consists of crushers, screens, conveyors, crushed aggregate stockpiles and associated equipment used to produce crushed limestone aggregate. Baghouses and wet suppression are used for control of particulate emissions. The requested modification is to opt-out of being issued a major source operating permit pursuant to Rule 1200-3-9-.02(11) of the Tennessee Air Pollution Regulations. The permittee has agreed to a limit of 99 tons per year for total particulate (TSP) emissions and a limitation of 0.02 grains per dry standard cubic foot of exhaust from all baghouses (dust collectors). The issuance of this permit will allow the continuation of a previously approved construction permit (958029P) for the installation of two (2) storage silos and six (6) additional dust collectors for Source -03 (Fine Grind System). Regulated air contaminants are emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before Thursday, May 4, 2006.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 58-0073-05/59216) to install a Generator at 802 19th Street, South Pittsburg, TN 37830. This proposed operation would consist of a diesel-fired internal combustion (IC) engine that would be used to provide power for an electric pump on site. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Marion County "Jasper Journal"--published once on or before Thursday, May 4, 2006.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 60-0017-04/59218) to modify a Rock Quarry and Rock Crushing Operation located at 642 Theta Pike, Columbia, TN 38401. The proposed modification consists of adding a stationary diesel engine to drive a generator used to supply power for the rock quarry operation. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, May 4, 2006.

The applicant is Indian Path Medical Center with a mailing address of 2000 Brookside Drive, Kingsport, TN 37662. They seek to obtain an air contaminant permit (Division identification number: 82-0165-03/58988) for construction of Two (2) Boilers at the same address. This proposed operation would consist of two (2) boilers and associated equipment used to produce steam for use in the Medical Center. No. 2 fuel oil and natural gas would be used for fuel. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sullivan County "Kingsport Times-News "--published once on or before Thursday, May 4, 2006.
